Total Size: 14,800 SF

Type of Work: New Construction

Project Cost: \$3,032,000

Completion Date: December 2008

PROJECT NOTES

Capitol City Family Health Center was founded in 1997 by a group of dedicated people with the goal of ensuring affordable, accessible and quality health services were provided to the Baton Rouge community. As such, construction of its new facility was an important milestone for the organization. In addition to accommodating a tight budget, D. Honoré Construction allowed the owner to occupy the building in advance of final completion and also obliged several change orders at no additional cost to the owner. Ultimately, DHC ensured the timely opening of a valuable public asset.

"Throughout construction, DHC provided quality work and onsite supervision that were both knowledgeable and responsive to the client's needs, including value engineering to accommodate their project budget."
